

VAISHALI
ENGINEERING

BUILDING YOUR VISION WITH PRECISION FABRICATION

About Us

We, **"VAISHALI ENGINEERING"**, take immense pride in introducing ourselves as the leading **manufacturer and supplier** of **MS Pipes, Concentric and Eccentric Reducers, Elbows, Tees, Flanges, Chimneys, Ducting, NON- IBR Boilers, Pressure Vessels, Reactor, Column, Storage Tank, Heavy Structure Work** etc.

The offered products are manufactured from superior quality raw material sourced from the trusted vendors and we are using latest machinery and technology for same. To ensure that our offered products are in-line with established quality standards of the industry, we have appointed diligent and skilled professionals who help us carrying out all business processes. They also ensure to upgrade the installed modern machinery and latest technology at our infrastructure so as to ensure that we don't face any technical trouble during production process.

We have tested our vessels on various parameters to ensure its flawlessness and durability. After the completion of the manufacturing process, we check these products by using latest technology so as to ensure their longer service life, less maintenance rust & wear resistance, precise design, fine finish, seamless shine and trouble free performance.

We manufacture vessels for water treatment plants, gas storage, pharmaceutical, chemical and refrigeration. We are open for customized vessels for any sort of requirement.

Our infrastructure is well-connected to the nearby transportation modes.

Plant & Machinery

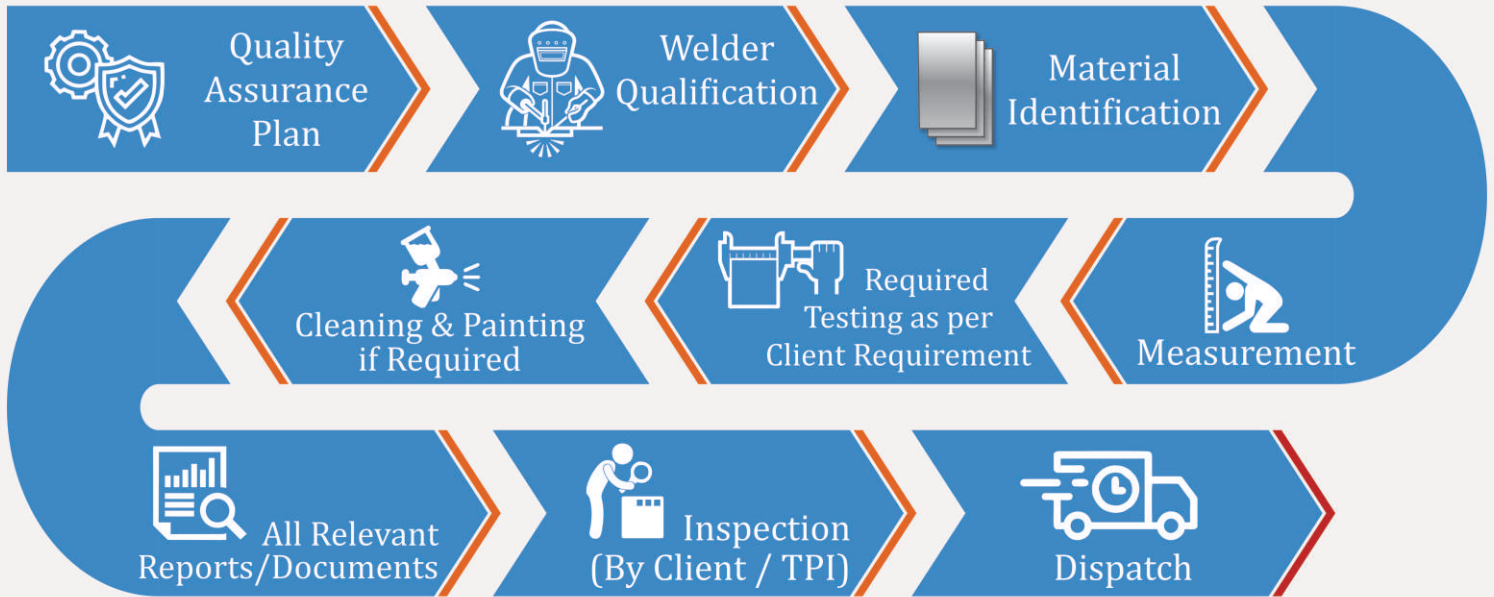

NAME OF EQUIPMENTS	QTY
Himalaya Plate Rolling Machine - 2.5Mtr Width * 25mm Thk	1 No.
Tank Rotator - 15 Ton	1 Set
Magnetic Drill Machine - 50mm	2 No.
Submerged Arc Welding Machine 1250 AMP	1 No.
SMAW + GTAW - 400 AMP	2 No.
Mig Welding Machine - 400 AMP	2 No.
Gas Cutting Set	2 No.
Pug Cutting Machine	2 No.
Overhead Crane 10 Ton	1 No.
Mother Oven 25kg	1 No.
Portable Oven 5kg	2 No.
Other Tools (Grinder, Hand Drill, Cutter)	10 No.

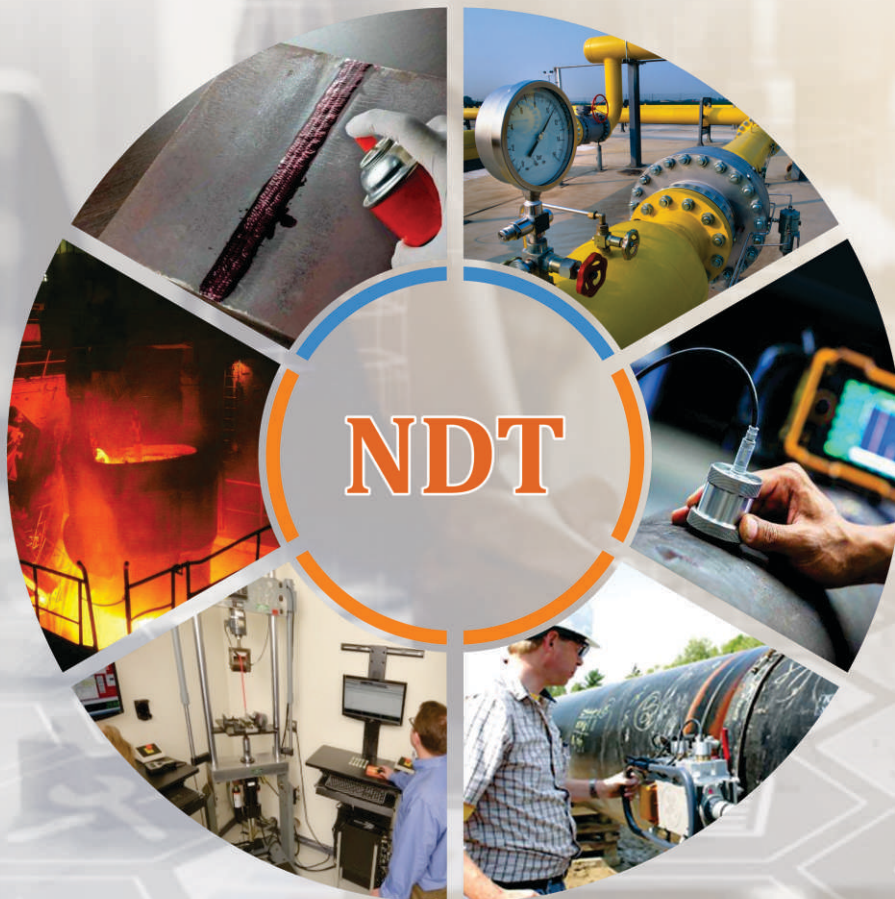

Quality Management System

At Vaishali Engineering, quality assurance is carried out by a proficient team. Visual, dimensional and welding quality is assured by our certified engineer's team. The Non Destructive Testing (NDT) is performed by qualified Level-II inspector.

We have our own **Quality Management System** as described below.

NDT Facilities

- InHouse Facilities
- Outsourcing Facilities

- DPT Testing
- Hydro Testing
- Ultrasonic Testing
- Radiography Testing
- Mechanical & Chemical Testing
- Heat Treatment

Pipe Fabrication

- Material** : Mild Steel, Carbon Steel
Type : Round
Size : Up to 4 Mtr Dia
Application : Water and Drainage Projects,
Government Canal Project

MS Reducer

- Material** : Mild Steel, Carbon Steel, Stainless Steel
Type : Concentric, Eccentric
Size : Up to 3.5 Mtr Dia
Application : Water and Drainage Projects,
Government Canal Project

Miter Bend

- Material** : Mild Steel, Carbon Steel
Size : Up to 2.5 Mtr Dia
Specification : As per Client Requirement

Chimney

- Material** : Mild Steel, Carbon Steel
Size : Up to 4 Mtr Dia
Specification : As per IS 6533 and
Client Requirement

Pressure Vessel

- Material** : Mild Steel, Carbon Steel, Stainless Steel
- Material Grade** : IS 2062, SA 516 GR 70, SS 304, SS 316
- Orientation** : Horizontal, Vertical
- Application** : Chemical, Water, Oil
- Specification** : As per Client Requirement

Storage Tank

- Material** : Mild Steel, Carbon Steel, Stainless Steel
- Type** : Round Horizontal & Vertical, Square
- Size** : Up to 4 Mtr Dia
- Application** : Chemical, Water, Oil, Industrial
- Specification** : As per Client Requirement

Heavy Structural Fabrication

- Material** : Mild Steel
- Type** : All type Heavy Structure
- Application** : Industrial, Engineering
- Specification** : As per Client Requirement

Our Projects

Our Esteem Clients

CORROTECH

ALLMAR

 E-83, Road No. 1, Phase -2, Swarnim Industrial Park,
Bakrol - Bujrang, Ahmedabad - 382430.
